Ideation Phase

Empathize & Discover

Date	03 October 2026
Team ID	SWTID-2026-8307
Project Name	Auto Ticket Classification using Flow Designer
Maximum Marks	4 Marks

Empathy Map Canvas:

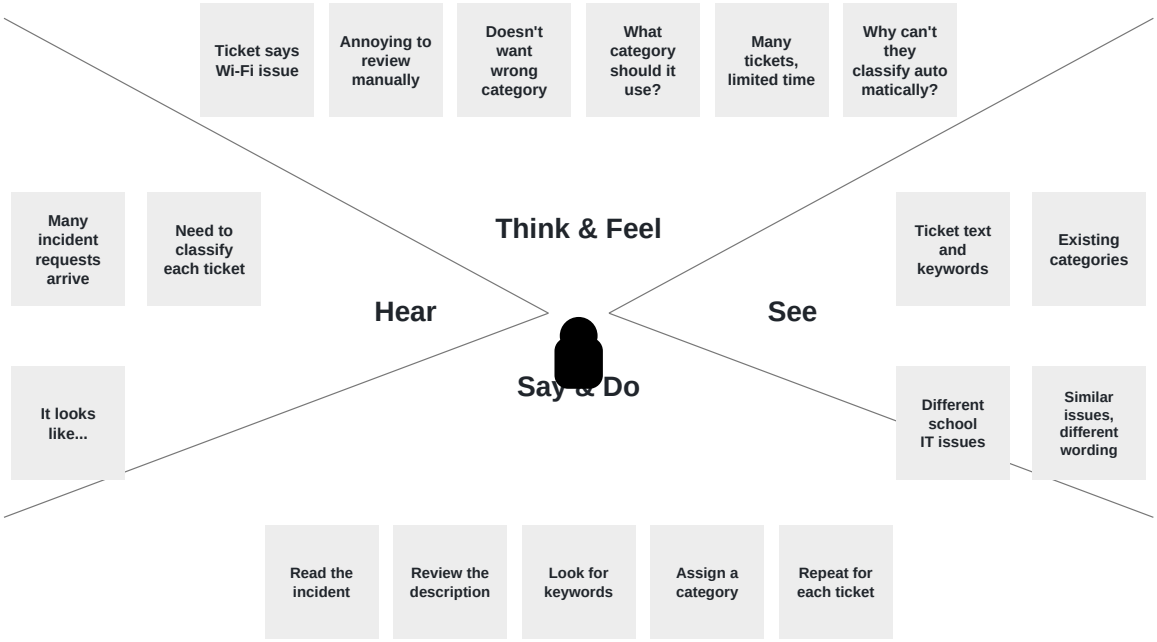
An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes. It is a useful tool to help teams better understand their users.

Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise helps participants consider things from the user's perspective along with his or her goals and challenges.

Example:

School IT Helpdesk Ticket Classification

Example: School IT Helpdesk Ticket Classification



Pain

- Manual review takes time
- Repetitive classification
- Inconsistent categorizatio n

Gain

- Faster classification
- Consistent categories
- Less manual effort
